

Post Secondary Education

Class of 2006

These data represent all high school graduates of a given school year. This differs from the 4-year cohort, separately reported.

For more information on New Mexico's 4-year cohort membership and calculations, see the PED website *Graduation Technical Manual*. Statistics are reported separately for three classes of high school graduates (2006, 2007, and 2008). Student counts and percentages are reported, and information is provided for the race ethnicity and program subgroups. The data meets all requirements in the federal definition of time periods and aggregation at the state, district, and school level. The NMPED will soon be collecting and analyzing this data through a contractor that will include data for out-of-state IHEs. Please note that the 2006 graduation data is incomplete for certain schools, data submissions are incomplete for that year.
